NIC 05154-86  
10 November 1986

MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM: Deane E. Hoffmann  
National Intelligence Officer for Economics

SUBJECT: Response to Your Note of 5 November on "The USSR's  
Economic Breakout"

The imbalance in the SOVA input to NSSD 2-86 reflects a response to the NSC outline which included a request for substantial background information. I discussed this imbalance with Alix Platt at the NSC, and I think you will agree that the redraft, as exemplified by the executive summary, gives greater emphasis to national security concerns. We all are in agreement that the primary goal of the final document will be to forewarn policymakers of future Soviet actions and possible risks US interests.
